VIBITHA C

Associate Software Engineer
Mobile – +919633226216, 8848461051
Email – vibithacpy@gmail.com

PROFESSIONAL OBJECTIVE

To keep abreast of latest technological know-how, by working in a creative and challenging environment using cutting edge technologies, where I have an opportunity to constantly learn and successfully deliver solutions to problems.

PROFESSIONAL SUMMARY

- 2Years and 1 months of experience in Software Testing.
- Strong Knowledge in Software Development Life Cycle and Software Test Life Cycle.
- Good exposure in **Selenium** with Java.
- Good exposure in **Data Driven Framework using TestNG**
- Expertise **in page object model –design pattern with page factory**
- Expertise in working with **Agile-Scrum Methodology.**
- Responsible for **Automation Scripting**, **Test Case Development** and **Test Execution**
- Good expertise in creating Test Cases and **Test Reports**.
- Strong Knowledge in **Black Box Testing Methodology**
- Knowledge on **Defect Reporting, Defect Tracking and Complete Defect Life Cycle.**
- Knowledge in Test Management using **Jira tool**
- Good Knowledge in **OOPS Concepts**

SKILLS

- Language - **Core Java**
- Testing Tool - **Selenium**
- Project Build Tool – **Maven**
- Framework - **TestNG Excel Read - POI**
- Design Pattern - **POM with Page Factory**
- Defect Tracking Tools – **JIRA**
- Version Control - Git
- OS- Windows
- IDE – **Eclipse**

EXPERIENCE

Bellfruit technologies pvt ltd – May 2019 to June 2021

PROJECT DETAILS

Project 1:

ShopsCart - ShopsCart is an ecommerce website that helps in purchasing the products that are displayed in the product lists. People can visit the website, choose the products they like, enter the required details; make payment and purchase goods and services in a jiffy.

Core Responsibilities

- Identifying Test scenarios
- Test case development and test execution
- Identifying test scenarios for Automation and Developing Automation test Scripts using Selenium
- Involved in Reviewing Test scenarios and Defect Reports
- Functionality testing of each module
- Regression testing
- Creating Test Reports using TestNG framework
- Reporting and tracking of Bugs

Project 2:

Bellfruit Payroll Application - simplifies payroll related tasks by automating the workflow for better and more accurate results. It has multiple modules for maintaining attendance, onboarding, payroll, expenses, recruitment, timesheets, training, and reports.

Core Responsibilities

- Analyzing the requirements and creating the test scenarios.
- Test case development
- Identifying the test scenarios for manual and automation testing.
- Manual execution of test cases.
- Test report preparation
- Bug reporting and tracking using Jira tool

EDUCATION
- MCA in 2017 from Nehru College of Engineering and Research Centre Calicut with 72%
- BCA in 2014 from Cherpulassery College of Science and Technology with 74%
- Plus Two in 2011 from G.V.H.S.S Cherpulassery with 74%
- 10th in 2009 from G.V.H.S.S Cherpulassery with 80%

PERSONAL DETAILS

Father's name: Rajagopalan
Date of birth : 01/06/1994
Sex   : Female
Religion   : Hindu
Nationality   : Indian
Address   : Kaippamkunnath [HO], Mayannur Post, Thrissur Kerala-679105
